Mouse Makes Cookies

By Bruce Larkin

Read the short story below.

Mouse bakes six cookies. He puts them on a tray.

He counts, one, two, three, four, five, and six."

Raccoon eats one cookie. Now there are five cookies.

Snake eats one cookie. Now there are four cookies.

Turtle eats one cookie. Now there are three cookies.

Bunny eats one cookie. Now there are two cookies.

Bear eats one cookie. Now there is one cookie.

Mouse eats one cookie, and now there are none!

Now answer each question.

1. What does mouse bake?

2. How many cookies are there?

3. Tell the name of the animals that eat one cookie each.

A Visit to the Water Park

There is a new water park in town. We go there on the first day of summer. It has pools and water slides. There are sprinklers too.

The slides are scary at first. But after the first ride, we get accustom and really enjoy the water slides. The sprinklers are cool and refreshing on hot days. One of the pools makes its own waves. All the kids try to surf the waves. It is really fun.

The water park can be very crowded. There are many kids and adults, but they do not allow pets. There are also lots of things to eat. You can get hot-dogs, burgers, chicken and fries at Coco Cafe and there is ice cream, cupcakes, cookies at Sunny's Snack Bar. They also sell popsicles and donuts. My entire family love the new water park.

QUESTIONS:

1. What is new in town?

2. When do they go to the new water park?

3. What is scary at first?

4. Were the rides still scary after the first ride? Explain your answer.

5. What is cool and refreshing on a hot day?

6. Which two snacks at the snack bar can help the children keep cool?
