SUBJECT: SCIENCE

Physics

Read the following text and answer the question.

During the daytime, Madhav switched on the lights to study. His father entered the room and drew the curtains apart, to allow natural light to enter the room and put off the lights. What value can you inculcate from Madhav's father?

Complete the activity and answer questions given.

Take a rod. Fix it at a place where sunlight falls on it directly. Record the shadow of the stick from morning till evening at regular intervals of one hour.

From the recorded observation table answer the following:

- When is the shadow: (1) largest in size (2) smallest in size?
- Can you observe any moment of the day when no shadow is cast?

- Can you observe the same phenomena if, instead of sunlight, we place the stick in a room lighted with a bulb?
- Does the colour of shadow change if we replace the given stick with the one of a different colour?

Chemistry

1. Activity - Collect some samples of different types of fabrics and paste in your Science notebook. Write their name and some special features:

1. texture- smooth/ rough
2. shine/ dull
3. transparent/ translucent / opaque
4. hard/soft

2. Using the property of float or sink, just try to differentiate between a fresh egg and a spoiled one.

3 Give two examples of each:

- (a) transparent material
- (b) translucent material
- (c) gases soluble in water
- (d) gases insoluble in water
- (e) liquid miscible in water
- (f) liquid immiscible in water.
