Daratassalam International DPS - Riyadh

CONGRATULATIONS

We are delighted to announce that Maryam Zukhruf Siddiquah, Grade 3 student aged 8 years studying at our school, has officially entered the **Guinness World Records** for the **fastest recitation of the entire periodic table**. In a remarkable display of speed and scientific precision recorded on April 19, 2026, Maryam completed the task in **just 33.71 seconds**. Beyond the recitation, she simultaneously arranged all elements into their correct scientific groups, a dual feat that has earned her **global recognition in the Age 16 category**.

The achievement, formally announced on May 11, 2026, marks a significant milestone for the young prodigy.

The record-breaking event was meticulously verified by a panel of distinguished experts to ensure technical accuracy. The review team included Dr. Nemat Ali, Dr. Mohd Ubaidullah, and Dr. Imran Hasan from King Saud University, Riyadh. This collective academic endorsement underscores the magnitude of Maryam's accomplishment on the international stage.

The certificate can be seen and verified from the following link:
